LinkedIn: [/MarineBruno](#) | Portfolio: [MarineBruno.com](http://MarineBruno.com) | GitHub: [/MarineBruno](#)

Developer leveraging background in state and federal politics to provide a client-based focus and deep understanding of teamwork. Earned a certificate in Full Stack Web Development from the Georgia Institute of Technology Coding Boot Camp and a Bachelors' Degree in Anthropology and English from Emory University. Originally self-taught but sought further education. Freelancer for political figures. Software developer for mobile games and discord bots. Strengths in communication, debugging, and creativity.

## TECHNICAL SKILLS

**Languages:** JavaScript ES6+, CSS3, HTML5, SQL, NoSQL, Python, Ruby, Lua, C++, C#

**Applications:** GitHub, MongoDB, MySQL, Reqbin, Postman

**Tools:** Express, React, Node, Handlebars, Query, Bootstrap

**Topics:** Ethical Hacking, SEO, Website Design and Development, Mobile Game Botting

## PROJECTS

### Dinner and a Drink! | <https://github.com/rickyonthephone/Project1Repo>

- Summary: Website created to pull three random recipes based on a user-side search, with their wine-pairings and after-dinner cocktails.
- Role: Front-end design, including JS-based carousel and modals
- Tools: HTML, CSS, JavaScript, Bootstrap, GoogleFonts, JQuery, API

### ToolBoxes | <https://github.com/MarineMasta/Toolbox>

- Summary: Toolboxes including a password generator, a weather app indicating current and future weather forecasts, and a scheduler
- Role: Sole author
- Tools: HTML, CSS, JavaScript, API, Bootstrap

### Kingdoms of Heckfire Bots | Code hosted locally, not on an open-source forum

- Summary: Uses an oauth to pull a bearer token for authorization, which is then used for various API requests to get backend game data. Hosted via discord, players can use commands such as !ally to get allies at a specified price for personal growth, !strip to get a player's allies for PvP, or !titan to get mobs for PvE.
- Role: Sole Author
- Tools: Python, Discord, Asyncio, ReqBin/Postman, JSON, Virtual Machine Hosting, API

## EXPERIENCE

### **Junior Software Developer Freelance**

**2021-Present  
Madison, WI**

Developed user-friendly websites and bots based on customers' original ideas and feedback throughout the project creations.

Key Accomplishments:

- Developed a political campaign website for a state legislator with a focus on constituent relations and SEO.
- Successfully ran a small business renting out three mobile game bots, written in python using asyncio and JSON, backend hosting via virtual machines, and frontend hosting through discord.

### **State Legislature Legislative Advisor and Communications Director**

**2020-Present  
Madison, WI**

Served 60,000 constituents by writing and advocating for various bills, handling constituent correspondence, running all social media platforms, and handling all press and scheduling requests.

Key Accomplishments:

- Wrote press releases and e-updates on behalf of the office.
- Re-designed the official legislative website via the legislature's Umbraco system.
- Increased Facebook monthly growth by 100%, Instagram monthly growth by 150%, and Twitter monthly visits by 1000% within 3 months of coming on board.
